

TUI BLUE The Passage Environmental Sustainability Policy

Our Commitment

Our senior management recognise the importance of environmental sustainability to minimise our impact on the environment. This policy outlines our commitment to reducing, minimising, and managing our environmental footprint in all aspects of our operations.

Our Goals

1. Installing low energy lighting throughout the hotel
2. Putting more information about conserving water and energy in public areas
3. Sourcing more sustainable products to replace plastic items
4. Implement linen and towel reuse program
5. Reviewing and replacing cleaning chemicals with eco-friendly alternatives
6. Planting our own vegetables garden
7. Upgrade air-conditioning to more energy saving system

We will consistently provide training to our entire staff and educate our clients, suppliers, and partners to inspire their involvement in backing our environmental management system and aiding our advancement.

Axel Boynes

General Manager
